

## Spreader Bars for Forklift

Spreader Bar for Forklifts - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader business all-around the globe. They have been a dedicated manufacturer of spreaders used for various applications like the swap bodies, trailers and handling of containers.

ELME currently employs more than a hundred and twenty five employees with all engineering is done in-house by way of using all of the most up-to-date CAD systems and FEM tools. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside across the world.

The ELME product range offers spreaders for various container and trailer handling operations. Some of their inventory include: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders in addition to a wide range of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made over 1150 spreaders by using high quality elements to ensure reliability and excellent standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
