

Clark Forklift Parts

Clark Forklift Parts - At this time, there are no less than 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 particular components intended for 20 unique brands of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a dominant market position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants for the reason that this system is extremely economical and enables minimal use of resources. Established to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient methods for production plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to perfect the effectiveness and excellence of their products while minimizing costs. The contemporary value engineering program combines progressive product improvement and provides superior client support and service within the industry.
